aloVéa

ALOVÉA BEST IN CLASS NUTRITIONAL TECHNOLOGIES

We empower people to make life changing health transformations through our unique proprietary products.

It All Starts with Nature's Most Amazing Molecule, Acemannan

Alovéa AE™ (Acemannan Extract) is our flagship technology. It provides the highest level of immune-optimizing fractions of the Acemannan molecules to help support your body's unique functions of defense and repair.

Through our Buy 1, Nourish 1™ platform for social impact, every time an Alovéa product is purchased a vulnerable child receives a 28-day supply of an Acemannan-based product to support their fragile immune system. In areas of the world where modern health care is not readily available, this intervention has often proven to be a life saving strategy.
